## CALLS FOR SERVICE—COMPARISON JUNE

### NORTH SIDE / SOUTH SIDE BY DAY OF WEEK

## OFFICER INITIATED—COMPARISON JUNE

### NORTH SIDE / SOUTH SIDE

## TPD HAPPENINGS

- Three 3 new officers are nearing the end of phase I of their field training. Each recruit was tested prior to progressing to phase II, each passed and has moved forward to phase II.
- Beginning in July we will be testing a new assignment—this will be a Desk Officer. The officer will be assigned to work 9am to 6pm. Responsibilities will include walk-in traffic, warrant service, miscellaneous information calls so that an officer doesn't have to come in off the street. The desk officer will also conduct foot patrols in the Uptown area, once in the morning and once in the afternoon to address concerns here as well. Sorry, because of the way our 911 system is set-up I'm not able to provide data to show what this will save. One example, Tuesday afternoon, 7/3/2012, in a 45 minute time span Ms B.J. called 3 times for an officer to come by the PD to handle an issue.
- We have had a smooth transition into our new organizational structure. Staff transitioning into new positions met with and updated those coming into their old positions. I held a Command Staff meeting at the Chamber of Commerce to discuss the changes and to emphasis—[communication—coordination—cohesiveness] and **B.I.G.** Our new Departmental focus.

I wanted to highlight our efforts in reference to the Uptown area.

Lt. David Tilley began problem-solving efforts in this area in March, 2012 following issues with subjects hanging in the alleyway. The focus included the area from Uptown Mobile down to the Railroad walkway.

Field contact cards were completed on the following subjects observed in the area:

- Paul Bean
- Jeremy Floyd
- Edward Montgomery
- Curtis Johnson

Between March 7th and the 14th

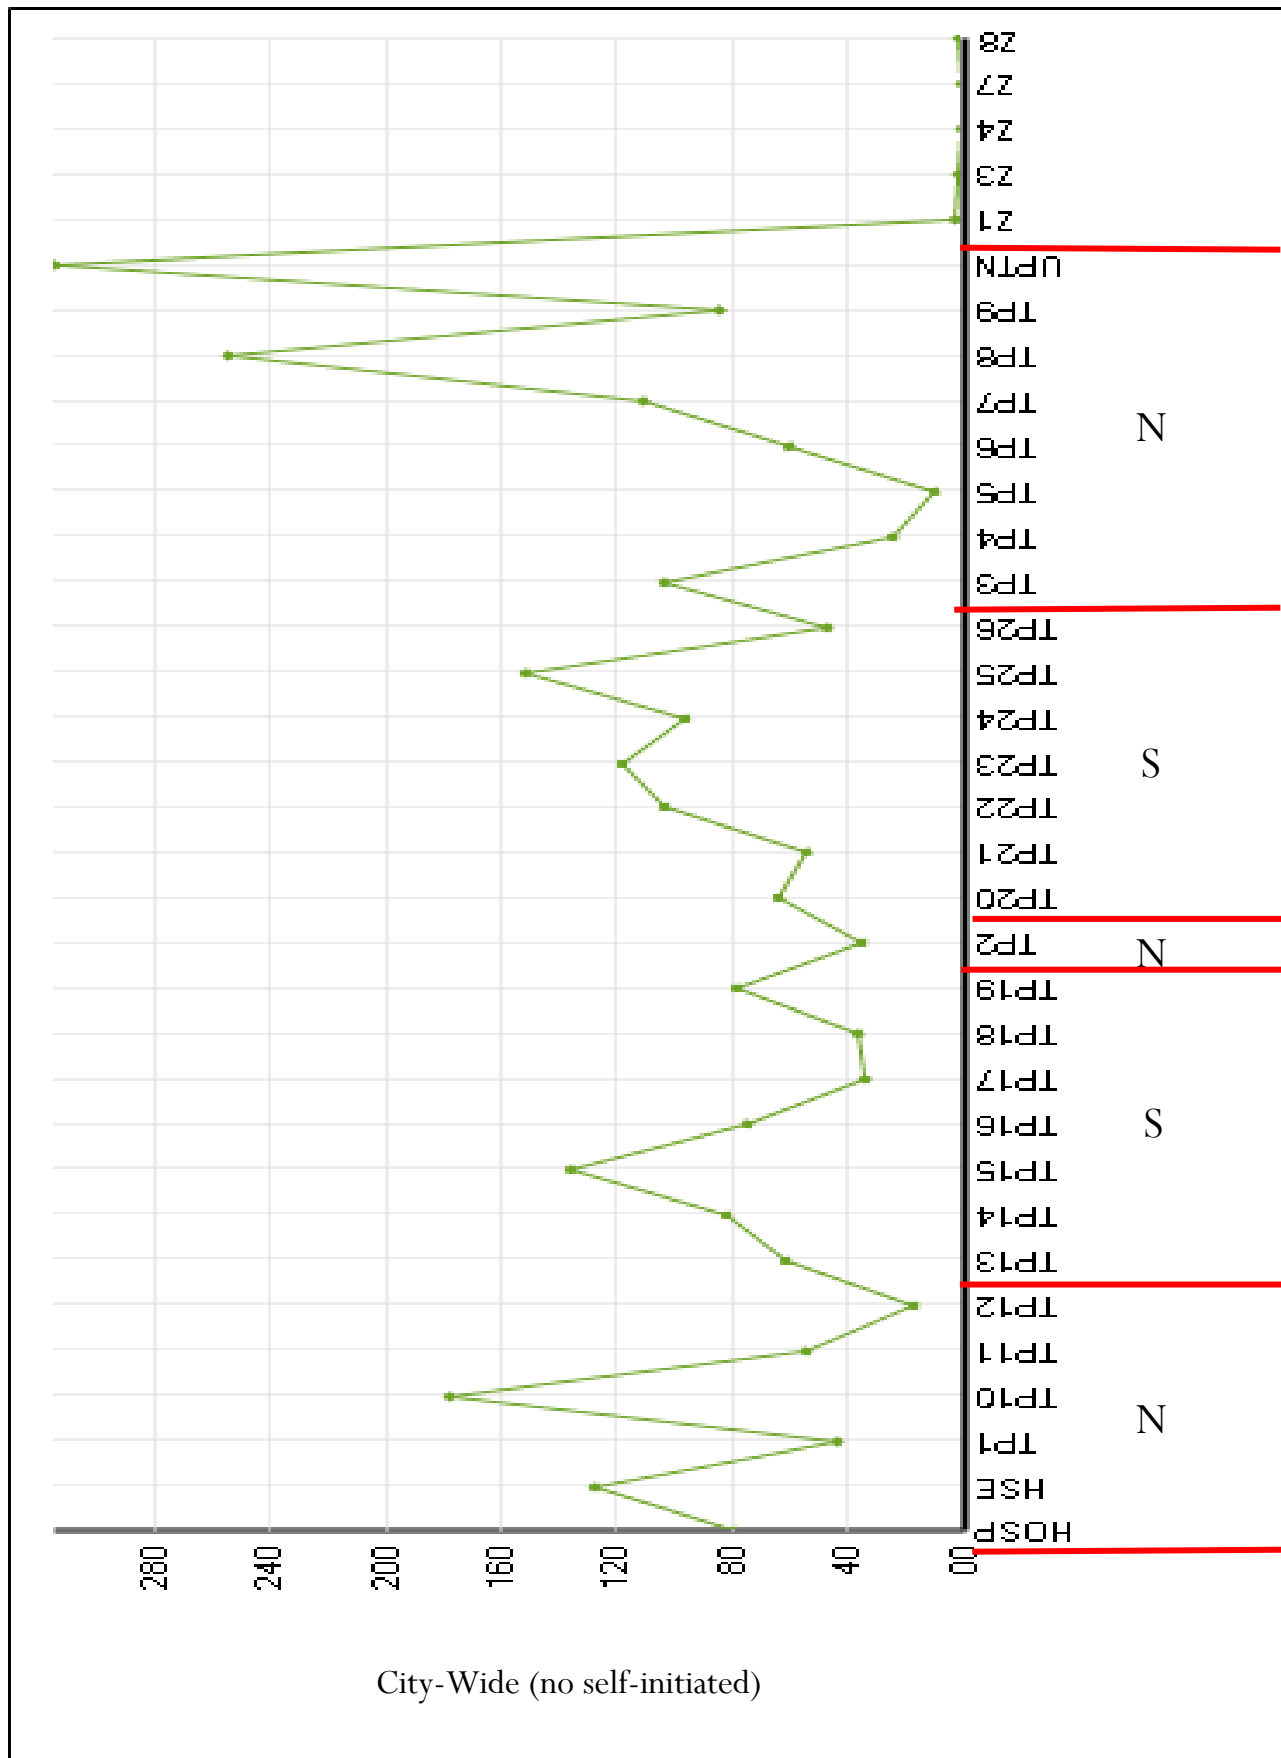

- Edward Montgomery—arrested for selling controlled substance
- Paul Bean—cited for having an open container  
cited for a 2nd ABC violation
- Jeremy Floyd—arrested for breaking and entering

Lt. Tilley found that the subjects were using an outside receptacle to charge their cell phones—he has since had the receptacle cut off. He found that one of the churches located on Main St was providing meals for the less fortunate. Also, Uptown Mobile is currently subject to an ongoing review and it is too early to discuss. Lt. Tilley along with Ms. Horner held a community mtg with 3 members in attendance. The following concerns were identified:

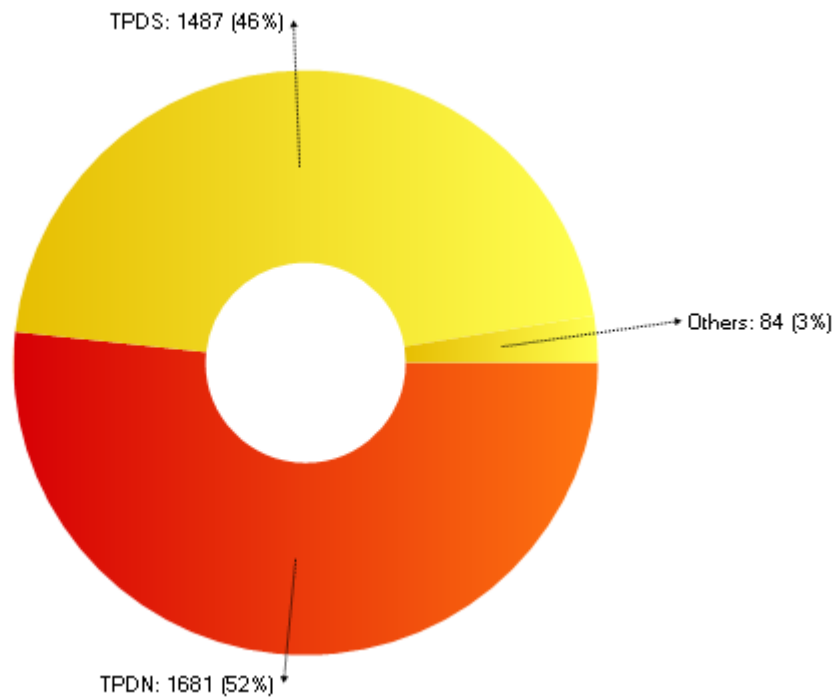

- People waiting for the bus are using the businesses as a place to wait for the bus and use their restrooms. Some businesses are not retail establishments and this activity has interfered with meeting with clients.
- People waiting for the bus are engaged in disruptive behavior such as loud arguments using profane language.
- People soliciting.
- Pedestrian traffic from the old TFI Plant L west through to Salem Street.
- Vagrants sleeping on the buildings or loitering in alley ways.
- Panhandlers

Some of these concerns were addressed by Lt. Tilley that night, for some of the others he and District officers will be updating their directed patrol strategy.

The process above is the definition of problem-oriented policing, PD made aware of a problem—Strategy to address developed—problem/concerns gets addressed—problem/concern changes—strategy changes— maintenance phase begins.
